5 STEPS TO THE

Future You

BELIEVE IT

First, you must believe there is a future you. Utilize your faith and know this is not the last stop concerning you. You have so much further to go and so much to accomplish.

SPEAK IT

Secondly, you have to speak over your life and current situations. The power of life and death is in our tongue. If you can't speak well of you, why would anyone else? Speak those things not as though they were. I am whole, I am successful, I will not lack.

SPEAK IT SEE IT

Next, you need a vision for yourself and of yourself. Write your vision and make it plain. How does the future you look, feel, and think? What does the future you wear? What career do you hold? Without vision we perish. So have a vision for yourself and of yourself. See yourself better than where you are now.

ACT LIKE IT

Then, carry yourself as you are believing, speaking and seeing the future you. Show up as if you are already who you are focused to become. Dress the part, talk the part, walk the part. You have the ability to be just who you want to be.

DO IT

Lastly, just do it. Everyday you owe it to yourself to do one thing towards the future you. If it's marriage, a new career, peace, financial stability, etc. that you desire, began to take the necessary actions to have everything concerning YOU!
